Re: Letter of Recommendation

Dear Prospective BRIVAR Client:

Everest Collegiate High School & Academy has been involved with BRIVAR for over two years. We are extremely pleased with their service and especially delighted with their quality of work.

Initially, BRIVAR came to the table to provide assistance in the planning process since we are looking to expand our existing campus in the near future. Craig had brought a team of experts to meet with us and educate us on the design and build process. The meeting was very helpful and gave me confidence that BRIVAR had the resources to handle any of our construction needs.

We engaged BRIVAR in two renovation projects that were successful completed on-time and on-budget. You don't hear that accomplishment too often in the construction world unless you're a client of BRIVAR. Our high school renovation project that was completed last summer has been our largest to date. Craig's understanding of our needs and the architectural drawings were impressive, which allowed the project to start on-time. An on-time project is important in a school environment. When issues came up, as they always do on a construction project, Craig and his team handled them quickly and professionally.

As in any organization, leadership at the top defines the quality of product and service. I think you would be hard press to find a person that will care about your project the same way you do but I think Craig would be the closest. His focus on your project, his commitment to excellence, and his passion for doing the right thing makes him an ideal partner.

Please feel free to contact me if I can be of further assistance. I can be reached at (248) 241-9017.

Sincerely,

Michael J. Nalepa
Executive Director
